COAL

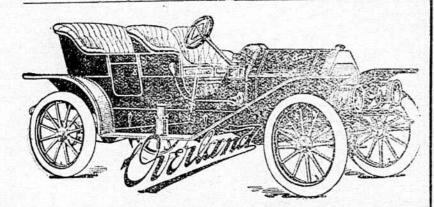

Anthracite Coal.

Our 1910 summer prices on Anthracite coal will become effective Monday, May 2nd There has never been a time in the history of our business when we felt that we were able to give better values in Anthracite cosl than we can this season, as we have completed our arrangements to secure our entire supply from two or three of the very best collieries in the Anthracite region, and will have a coal which is uniform in quality, well prepared, and coal that will give far better results than the average.

It is our desire to give our trade the best values that can be had, and we earnestly solicit the orders of our friends and customers.

The Overland factory is at this time 3,000 cars behind on orders. It is not hot air and it is not advertising bluff when we say that the demand for the Overland is growing like a flood. These are actual facts and there is a reason. The very fact that Overlands are hard to get proves their value all the more, and they are well worth waiting for. Give us the "wink" and we will try to get one for you

CONVICTS PERISH.

Thirty-six negro convicts lost their lives early yesterday when the stockade of the Bedfeather Coal Company, at Ducile mines, Bibb county, Als., about 16 miles north of Centerville, was destroved by a fire, set by one of the prisoners

in an effort to gain his freedom. Thirty-five of the convicts were burned to death and another was fatally shot by guards while trying to escape. Among those burned is the negro who started the bleza.

The fire spread rapidly throughout the structure, which, on account of the extreme dryness of the material, was quickly consumed. It was with much difficulty that the

unharmed convicts in the stockade were prevented from eluding the guards.
